About UMVA TV

Our Story

UMVA TV started operating in 2022 with a simple mission: make live television from every country in the world accessible and affordable for everyone. What began as a small collection of international channels has grown into the world's largest TV streaming platform with over 30,000 channels from 200+ countries and territories.

We partner with broadcasters, content providers, and satellite operators worldwide to bring you the most comprehensive TV channel library available anywhere. From major international networks to local community channels — if it broadcasts somewhere in the world, you can watch it on UMVA TV.

Our commitment is simple: the best TV experience at the lowest possible price. No hidden fees, no long-term contracts, no complicated setups. Just one subscription, unlimited channels, endless entertainment.

Since 2022

Pioneering global TV access for everyone. Constantly growing. Every day.

Metric	Value
Channels	30,000+
Countries	200+
Categories	50+
Founded	2022
Monthly Price	\$2/month

Channel Categories Overview

Every genre, every interest — find your favorite channels below. UMVA TV covers 50+ categories with thousands of channels.

News & Current Affairs

500+ channels

CNN, BBC, Al Jazeera, Sky News, France 24, RT, NHK World, DW, and hundreds of local news channels from every country. Stay informed with global and local perspectives 24/7.

Sports

800+ channels

ESPN, Fox Sports, beIN Sports, Sky Sports, Sport TV, Premier Sports, and local sports networks covering football, basketball, cricket, rugby, tennis, MMA, motorsports, and more. Live matches, highlights, analysis.

Bank Transfer & Mobile Money

Direct bank transfer, mobile money, and user balance. Flexible payment options for everyone.

How UMVA TV Works

Getting started with UMVA TV is incredibly simple. There are no complicated setups, no hardware to install, and no long-term contracts. Just browse, subscribe, and start watching the world.

Step 1: Browse 30,000+ Channels

Start by exploring our massive library of over 30,000 live TV channels. You can browse by country to find channels from specific nations, by category to find content you love, or use the search feature to find any channel instantly.

Our intuitive interface lets you preview channels before subscribing. You can see what's available, check channel descriptions, and explore the full breadth of our library — all without any commitment.

- Filter by 200+ countries
- Filter by 50+ categories
- Search by channel name
- Free preview available

Step 2: Subscribe for \$2/month

Once you are ready for unlimited access, subscribe for just \$2 per month (\$24/year). One flat rate, no tiers, no discounts, no hidden fees. Your subscription gives you unlimited access to every channel in our entire library.

We accept multiple payment methods: credit/debit cards, cryptocurrencies (USDT, BTC, ETH, and more), bank transfers, and mobile money. Your subscription activates instantly upon payment confirmation.

- No long-term contracts
- Cancel anytime
- Instant activation
- Auto-renew available

Step 3: Watch Instantly on Any Device

Once subscribed, simply click any channel to start watching immediately. Streams play directly in your browser — no downloads, no plugins, no special software needed. You can watch on your phone, tablet, laptop, desktop, or smart TV.

Switch between channels freely, search for specific content, bookmark your favorite channels, and enjoy unlimited viewing. Your subscription gives you full access to all 30,000+ channels with no restrictions.

- Instant streaming
- No downloads needed
- Works on all devices
- Unlimited viewing

Additional Features

Bookmark Favorites

Save your most-watched channels for quick access. Your favorites are synced across all devices.

Smart Search

Find any channel in seconds. Search by name, country, or category. Our powerful search covers all 30,000+ channels.

Switch Channels Freely

Jump between channels instantly. No limits on how many channels you can watch. Unlimited channel surfing.

Daily Updates

New channels added every day. The library is constantly growing with fresh content from around the world.

24/7 Support

Need help? Contact our support team anytime via WhatsApp, live chat, or tickets. We respond within minutes.

IPTV API Access

Developers can integrate our 30,000+ channels into their own apps using our REST API. \$100/month for full access.

Supported Devices & Requirements

No apps, no downloads, no special hardware. UMVA TV works on any device that has a modern web browser. Simply log in from any device and start watching 30,000+ live TV channels instantly.

Smartphones

iPhone, Samsung, Google Pixel, OnePlus, Xiaomi, Huawei, and all Android & iOS smartphones. Works in Safari, Chrome, Firefox, and Samsung Internet browsers.

Tablets

iPad, Samsung Galaxy Tab, Amazon Fire, Huawei MediaPad, and all Android & iOS tablets. Optimized for both portrait and landscape viewing.

Laptops

MacBook, Dell XPS, ThinkPad, HP Spectre, Surface Laptop, Chromebook, and all Windows, macOS, and Linux laptops. Full desktop experience.

Desktop Computers

iMac, Windows PC, Linux desktop. Works in Chrome, Firefox, Safari, Edge, Opera, and all modern desktop browsers.

Smart TVs

Samsung Smart TV, LG webOS, Sony Android TV, Tizen, Roku TV, and any smart TV with a built-in web browser. Simply open the browser and navigate to UMVA TV.

Any Modern Browser

Chrome, Firefox, Safari, Edge, Opera, Brave, Vivaldi, Arc, and all Chromium-based browsers. Always up to date and compatible.

Requirements

- **Internet Connection:** A stable internet connection with at least 5 Mbps for SD and 10+ Mbps for HD streaming. Works on WiFi, 4G, 5G, and wired connections.
- **Modern Web Browser:** Any modern browser that supports HTML5 video playback. Chrome, Firefox, Safari, Edge, Opera — all work perfectly.
- **Active Subscription:** A valid UMVA TV subscription (\$2/month) for unlimited access to all 30,000+ channels. Free preview available before subscribing.

- **No Special Hardware:** No IPTV boxes, no satellite dishes, no special receivers. Just a device with a browser and an internet connection. That is all you need.

IPTV API Access

Clean IPTV URLs for Your Projects — \$100/month. Integrate 30,000+ live TV channels into your own applications, media players, IPTV services, or streaming platforms. Our IPTV API delivers clean, validated, and regularly updated streaming URLs.

Whether you're building a custom TV app, a media center, or a white-label IPTV service, our API gives you the data you need.

What is the IPTV API?

The UMVA TV IPTV API is a RESTful API that provides programmatic access to our entire library of 30,000+ live TV channels. Each API response includes the channel name, streaming URL, the channel type/category, country of origin, and thumbnail image.

Unlike the standard UMVA TV web interface (which costs only \$2/month for end users), the IPTV API is designed for developers and businesses who want to integrate live TV channels into their own applications, media players, IPTV services, or white-label solutions.

All stream URLs returned by the API are clean, validated, and ready to use in your applications. Authentication is handled via API keys — one key per subscription.

Quick Facts

Feature	Detail
Price	\$100/month per API key
Auth	Bearer Token (API Key)
Format	JSON
Rate Limit	200 requests/minute
Streams	Clean, validated URLs ready to use
Channels	30,000+ active channels

IPTV API Pricing

Full IPTV API Access — \$100/month (\$1,200/year — flat rate, no discounts, no hidden fees).

- Full REST API Access
- 30,000+ Clean Streaming URLs
- Filter by Country, Type & Search
- JSON Responses — Easy Integration
- Cancel Anytime — No Contracts
- No Hidden Fees — What You See Is What You Pay

Visa, Mastercard, Amex, Crypto, Bank Transfer & Mobile Money accepted.

IPTV API Endpoints & Code Examples

Comprehensive REST API for accessing 30,000+ live TV channels. All endpoints return JSON.

Base URL

`https://umva.net/api/iptv`

Authentication

All API endpoints require authentication using your API key. You can provide it in two ways:

- Header: Authorization: Bearer {your_api_key}
- Query Param: `https://umva.net/api/iptv/channels?api_key={your_api_key}`

Your API key is generated automatically when you subscribe. Find it in your dashboard under IPTV API Settings.

GET /channels

Get a paginated list of TV channels with clean streaming URLs. Optionally filter by country, type, or search term.

Query Parameters (all optional)

Parameter	Required	Description
country	Optional	Filter by country name (e.g. "United States")
type	Optional	Filter by channel type/category (e.g. "News")
search	Optional	Search by channel name
per_page	Optional	Results per page (default: 50, max: 200)

cURL Example

```
curl -H "Authorization: Bearer iptv_your_api_key_here" \  
"https://umva.net/api/iptv/channels?country=United+States&type=News&per_page=10"
```

GET /countries

Get a list of all available countries that have channels in our database. Useful for building country filter dropdowns in your application.

cURL Example

```
curl -H "Authorization: Bearer iptv_your_api_key_here" \  
"https://umva.net/api/iptv/countries"
```

GET /types

Get a list of all available channel types/categories. Useful for building type filter dropdowns in your application.

cURL Example

```
curl -H "Authorization: Bearer iptv_your_api_key_here" \  
"https://umva.net/api/iptv/types"
```

GET /stream/{channel_id}

Get a stream URL for a specific channel. This endpoint validates your subscription and returns the streaming URL.

cURL Example

```
curl -H "Authorization: Bearer iptv_your_api_key_here" \  
"https://umva.net/api/iptv/stream/{channel_id}"
```

IPTV API Integration Examples

Quick start guides for popular programming languages and use cases.

PHP (cURL)

```
$apiKey = 'iptv_your_api_key_here';
$ch = curl_init('https://umva.net/api/iptv/channels?per_page=5');
curl_setopt($ch, CURLOPT_HTTPHEADER, [
    'Authorization: Bearer ' . $apiKey
]);
curl_setopt($ch, CURLOPT_RETURNTRANSFER, true);
$response = curl_exec($ch);
$data = json_decode($response, true);
foreach ($data['data'] as $channel) {
    echo $channel['channel_name'] . "\n";
    echo $channel['channel_url'] . "\n";
}
```

Python (requests)

```
import requests

api_key = 'iptv_your_api_key_here'
headers = {'Authorization': f'Bearer {api_key}'}
params = {'per_page': 5}

response = requests.get(
    'https://umva.net/api/iptv/channels',
    headers=headers,
    params=params
)
data = response.json()
for channel in data['data']:
    print(channel['channel_name'])
    print(channel['channel_url'])
```

JavaScript (fetch)

```
const apiKey = 'iptv_your_api_key_here';

fetch('https://umva.net/api/iptv/channels?per_page=5', {
  headers: {
    'Authorization': `Bearer ${apiKey}`
  }
})
.then(res => res.json())
.then(data => {
  data.data.forEach(channel => {
    console.log(channel.channel_name);
    console.log(channel.channel_url);
  });
});
```

VLC / M3U Playlist

```
# Use the channels endpoint to generate an M3U playlist
# Programmatically fetch channels and generate:
#EXTM3U

IPTV API Response Format

All API responses follow a consistent JSON structure.

Success Response (Channels List)

```
{
  "success": true,
  "data": [
    {
      "channel_id": "uuid-here",
      "channel_name": "CNN International",
      "channel_url": "https://umva.net/api/iptv/stream/uuid-here?api_key=...",
      "channel_url_type": "m3u8",
      "channel_country": "United States",
      "channel_type": "News, Top News",
      "channel_thumb": "https://umva.net/assets/TV/us.png"
    }
  ],
  "meta": {
    "current_page": 1,
    "last_page": 10,
    "per_page": 50,
    "total": 500,
    "subscription_status": "active",
    "subscription_expires_at": "2025-12-31T23:59:59Z"
  }
}
```

Error Response (Unauthorized)

```
{
  "success": false,
  "message": "Invalid API key."
}
```

Error Response (Expired Subscription)

```
{
  "success": false,
  "message": "Subscription is expired. Please renew your subscription.",
  "status": "expired",
  "expires_at": "2025-01-01T00:00:00+00:00"
}
```

Who Uses the IPTV API?

Our API powers TV experiences for developers and businesses worldwide.

Custom TV Apps

Build your own live TV streaming application for mobile, desktop, or web. Use our API as the content source and build your own user interface and experience.

White-Label IPTV Services

Launch your own IPTV service using our API as the backend. Package our channels under your brand, set your own pricing, and manage your own customers.

Media Center Plugins

Create plugins for Kodi, Plex, Jellyfin, Emby, or other media center platforms. Give your users access to 30,000+ live TV channels directly from their media center.

Mobile Apps

Integrate live TV into your iOS or Android application. Our JSON API is easy to consume from any mobile framework including React Native, Flutter, and native SDKs.

Automation & Bots

Use our API in automation scripts, chatbots, or AI applications. Fetch channel lists, stream URLs, and metadata programmatically for any automation workflow.

Market Research & Monitoring

Monitor live TV channels from around the world for news analysis, media monitoring, competitive intelligence, or content research. Access channels from 200+ countries.

IPTV API FAQ

Common questions about the IPTV API subscription.

What is the difference between the \$2/month TV subscription and the \$100/month IPTV API?

The \$2/month subscription is for end users who want to watch TV channels through our web interface. The \$100/month IPTV API is for developers and businesses who want programmatic access to channel data and streaming URLs to integrate into their own applications, media players, or white-label services.

How do I get my API key?

After subscribing to the IPTV API plan, your API key is automatically generated. You can find it in your user dashboard under IPTV API Settings. The key format is "iptv_" followed by 40 random characters.

Can I use the IPTV API in my own mobile app?

Yes! The IPTV API is designed for integration into any application. Our REST API returns JSON, making it compatible with iOS, Android, web apps, desktop apps, and any other platform that can make HTTP requests.

Are the stream URLs clean and ready to use?

Yes. All channel URLs returned by the API are clean, validated, and ready to use directly in your applications, media players, or IPTV services. No additional processing needed — just fetch and play.

How often are channels updated?

Channels are synced and validated daily. New channels are added continuously, and broken or inactive streams are removed. The total channel count is always growing.

What stream formats are supported?

We support HLS (.m3u8), MP4, and other common streaming formats. The `channel_url_type` field in the API response indicates the format for each channel. Most channels use HLS (m3u8).

Can I filter channels by country or category?

Yes! Our API supports filtering by country name, channel type/category, and text search. Use the `country`, `type`, and `search` query parameters with the `/channels` endpoint. Use the `/countries` and `/types` endpoints to get the list of available filter values.

Is there a rate limit?

The API is rate-limited to 200 requests per minute per API key. If you need higher limits, contact our support team to discuss custom plans.

Can I cancel my IPTV API subscription?

Yes, you can cancel anytime from your dashboard. Your API access will continue until the end of your current billing period. No early termination fees.

What is the pricing?

Our pricing is simple and transparent: \$100/month or \$1,200/year. What you see is what you pay — no discounts, no hidden fees, no surprises. One flat rate for full API access to all 30,000+ channels.

Frequently Asked Questions

Find answers to all your questions about UMVA TV — from subscriptions and channels to devices, payments, and our IPTV API. If you can't find what you're looking for, our support team is here to help 24/7.

Getting Started

What is UMVA TV?

UMVA TV is a live TV streaming service that gives you access to over 30,000 television channels from more than 200 countries worldwide. For just \$2/month, you can watch news, sports, movies, entertainment, music, kids shows, documentaries, and more from every corner of the globe.

How do I start watching?

Simply visit the UMVA TV page and browse our channel library. You can start with a free preview to explore the platform. When you are ready for unlimited access, subscribe for just \$2/month and start watching immediately.

Do I need to create an account?

Yes, you need to create a free account to access UMVA TV. Registration is quick and easy — just provide your email and choose a password. Once registered, you can browse channels and access your subscription.

Is there a free trial?

Yes, we offer a free preview that lets you explore the platform and watch limited content before subscribing. For full unlimited access to all 30,000+ channels, you will need an active subscription at just \$2/month.

How do I subscribe?

Log in to your account, go to the TV Access Pass section, and choose your preferred plan — Monthly (\$2), Quarterly (\$5/3mo), or Yearly (\$18/yr). Complete payment and start watching immediately.

Can I watch without subscribing?

We offer a limited free preview to help you explore the platform. For full access to all 30,000+ channels, an active subscription is required.

Channels & Content

How many channels do you have?

We have over 30,000 live TV channels covering every genre and country. Our library includes channels from all 200+ countries and territories, organized by category. New channels are added daily.

What categories are available?

We have channels in virtually every category: News & Current Affairs, Sports, Movies & Entertainment, Music, Kids & Family, Documentary & Science, Shopping, Religious & Spiritual, Educational, Comedy & Lifestyle, and many more niche categories.

Can I watch channels from my home country?

Yes! We carry channels from every country in the world. Whether you are looking for local news from your hometown, sports broadcasts from your home country, or entertainment in your native language, we have it. Browse by country to find channels from any nation.

Are channels available in multiple languages?

Absolutely! We have channels in virtually every language — English, Arabic, Spanish, French, Portuguese, Hindi, Chinese, Japanese, Korean, Russian, German, Italian, Turkish, Urdu, and many more. Our global collection covers all major language groups.

How often are new channels added?

New channels are added every single day. Our team continuously sources, validates, and integrates new channels from broadcasters around the world. The library is constantly growing.

Can I request a channel?

Yes! If there is a channel you want that is not in our library, contact our support team with the channel name and country. We will do our best to source and add it. We add dozens of new channels every week based on user requests.

What is the stream quality?

We strive to provide the highest quality streams available for each channel. Quality varies by source but most channels stream in SD to HD resolution. Our infrastructure is optimized for smooth, reliable playback with minimal buffering.

Subscription & Billing

How much does UMVA TV cost?

UMVA TV costs only \$2 per month for unlimited access to all 30,000+ channels. We also offer a Quarterly plan at \$5 for 3 months (save 17%) and a Yearly plan at \$18 for 12 months (save 25%). All plans include the same unlimited access.

What payment methods do you accept?

We accept multiple payment methods including credit/debit cards (Visa, Mastercard, Amex, Verve), cryptocurrencies (USDT, BTC, ETH, LTC, BNB, SOL, DOGE, and 40+ more), bank transfers, and mobile money.

Can I cancel my subscription?

Absolutely! There are no long-term contracts or commitments. You can cancel your subscription at any time from your account dashboard. Your access will continue until the end of your current billing period. No early termination fees.

Will I lose my favorites if I cancel?

No, your account and preferences are saved. If you resubscribe later, all your favorite channels and settings will still be there.

Do you offer refunds?

We want you to be satisfied with our service. If you experience issues, please contact our support team. We handle refunds on a case-by-case basis and are committed to resolving any problems.

Can I switch between plans?

All plans include the same unlimited access — the only difference is the billing duration. You can extend your subscription at any time from your dashboard. There is no downgrade because every plan includes everything.

Is auto-renewal available?

Yes, auto-renewal is available and can be toggled on or off from your account dashboard. If enabled, your subscription will automatically renew at the end of each billing period so you never lose access.

Can I pay with cryptocurrency?

Yes! We accept USDT (TRC20 and BEP20), BTC, ETH, LTC, BNB, SOL, DOGE, and many more cryptocurrencies. Select crypto payment at checkout.

Devices & Streaming

What devices can I watch on?

UMVA TV works on any device with a modern web browser — including smartphones (iOS & Android), tablets, laptops, desktop computers, and smart TVs. No special hardware or software installation is required.

Do I need to download an app?

No downloads or installations are needed. UMVA TV streams directly in your browser. Simply visit the website, browse channels, and click to watch. It works instantly on any device.

Can I watch on multiple devices?

Yes, you can access UMVA TV from any device with your account. Your subscription is tied to your account, not a specific device. Log in from any device and start watching.

Do I need a fast internet connection?

For the best experience, we recommend a stable internet connection with at least 5 Mbps download speed for SD streaming and 10+ Mbps for HD streaming. Most modern broadband and 4G/5G connections work well.

Why is a channel buffering?

Buffering can occur due to your internet connection speed, network congestion, or the source stream quality. Try reducing video quality, switching to a different stream, or checking your internet connection.

Can I cast to my TV?

Yes, if your TV has a web browser or supports screen mirroring/casting, you can watch UMVA TV on the big screen. Simply open the website in your TV browser or cast from your phone or computer.

IPTV API (Developer FAQ)

What is the IPTV API?

The IPTV API is a RESTful API that provides programmatic access to our entire library of 30,000+ live TV channels. Each response includes the channel name, streaming URL, type/category, country, and thumbnail. It is designed for developers and businesses who want to integrate live TV into their own applications.

How much does the IPTV API cost?

The IPTV API costs \$100/month or \$1,200/year for full access to all 30,000+ channels. What you see is what you pay — no discounts, no hidden fees, no surprises. Each subscription comes with a unique API key.

How is the IPTV API different from the \$2/month TV subscription?

The \$2/month subscription is for end users who watch through our web interface. The \$100/month IPTV API is for developers who need programmatic access to channel data and streaming URLs to integrate into their own apps, media players, or white-label services.

How do I authenticate with the API?

Authentication is via API key. Provide it as a Bearer token in the Authorization header: Authorization: Bearer {your_api_key}, or as a query parameter: ?api_key={your_api_key}. Your API key is generated when you subscribe.

Are the stream URLs clean and ready to use?

Yes. All channel URLs returned by the API are clean, validated, and ready to use directly in your applications, media players, or IPTV services. No additional processing needed — just fetch and play.

What endpoints are available?

We have four primary endpoints: GET /api/iptv/channels (paginated channel list with filters), GET /api/iptv/countries (list available countries), GET /api/iptv/types (list available types/categories), and GET /api/iptv/stream/{id} (stream URL for a specific channel).
